Iberoamericano de
Ingeniería Química
ANQUE-ICCE 3
Student
Conference

WORKSHOP: "RENEWABLE HYDROGEN ENERGY WORLD" 20-21 June 2019, Santander, SPAIN

List of confirmed invited speakers

"The Future of Hydrogen Generation by Electrolysis: Status and Prospects"

Prof. Andreas Friedrich. German Aerospace Center (DLR). Germany

"Materials Chemistry Research for Fuel Cells and Hydrogen"

Prof. Steven Holdcroft. Simon Fraser University. Canada

"Membrane and adsorption based hydrogen purification for PEMFC applications"

Prof. Adelio Mendes. U. Porto. Portugal

"Roadmap to the Energy System 2050 in Germany – Hydrogen as a Key Energy Carrier"

Dr. Martin Robinius. Forschungszentrum Jülich. Germany

"Recent progress in safety of gaseous hydrogen storage"

Dr. Dmitriy Makarov. HySAFER. Ulster University. United Kingdom

"Maximizing renewable energy deployment by means of hydrogen as energy vector"

Dr. Javier Brey. H2B2. President of AeH2 (Spanish Hydrogen Association). Spain

"A Roadmap for Hydrogen in Portugal – Brief overview of the system approach used"

Dr. Paulo Partidário. Direção Geral de Energia e Geologia. Portugal

"Current situation and perspectives of R & D in Spain. Hydrogen as an energy vector"

Prof. Jesús Arauzo. Presidente del Panel "Energía y Transporte" de la Agencia Estatal de Investigación Española.

Abstract submission deadline: 17 April 2019

WORKSHOP: "RENEWABLE HYDROGEN ENERGY WORLD" 20-21 June 2019, Santander, SPAIN

High Quality papers are welcome for a Special Issue in:

"International Journal of Hydrogen Energy"

Editor in Chief: Emre A. Veziroglu

Guest Editors: Dr. Alfredo Ortiz. University of Cantabria
Prof. Daniel Gorri. University of Cantabria

Impact Factor: 4.229

Submission deadline: **September 30, 2019**

Scientific Committee:

Dr. Alfredo Ortiz. University of Cantabria
Prof. Deborah Jones. Institut Charles Gerhardt Montpellier. CNRS
Prof. Carmen Rangel. LNEG - Laboratório Nacional de Energia e Geologia
